

READ SAFETY DIRECTIONS BEFORE OPENING OR USING

ACTIVE CONSTITUENT: 1000g/L ALCOHOL ALKOXYLATE

A Non-ionic 100% Wetting Agent, for the improvement of spray coverage when using Agricultural Chemicals

IMPORTANT: READ THIS LEAFLET BEFORE USING THIS PRODUCT

STORAGE AND DISPOSAL

Keep out of reach of children.
Store in the closed, original container in a cool well-ventilated area. Do not store for prolonged periods in direct sunlight. Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and deliver empty packaging for appropriate disposal to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. DO NOT burn empty containers or product.

Refillable containers:

Empty contents fully into application equipment, close all valves and return to point of supply for refill or storage.

SAFETY DIRECTIONS

Avoid contact with eyes and skin. When using or preparing product for use, wear overalls, PVC/rubber gloves, goggles and safety shoes. After use and before eating, drinking or smoking wash hands.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre (Ph: Australia 13 11 26). If swallowed rinse mouth with water. Give several glasses of water to drink. If vomiting occurs, give more water to drink and seek medical advice. If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor. If skin contact occurs, remove contaminated clothing and wash skin thoroughly with soap and water. If irritation occurs seek medical advice.

SAFETY DATA SHEET

For further information refer to the Safety Data Sheet (SDS) which can be obtained from your supplier or the AxiChem website.

LIMIT OF WARRANTY AND LIABILITY

AxiChem Pty Ltd warrants that this material conforms to the chemical description on the label. As the use of product sold is beyond the control of AxiChem Pty Ltd, no responsibility whatsoever for any consequences is accepted in respect of this product, save those non-excludable conditions implied by any State and Federal legislation or law of a Territory. Not for repacking or reformulations. No licence under any non-Australian patent is granted or implied by purchase of this container.

DIRECTIONS FOR USE

AC Axiwetta 1000 can be used where the addition of a surfactant is required or recommended on the agricultural chemical label. Variations in conditions of use can require some changes in the amount of AC Axiwetta 1000.

SITUATION	APPLICATION RATE/100L	CRITICAL COMMENTS
Non-selective Herbicides Foliar Active	25-100mL	Use the higher rate on waxy, hairy or hard to wet surfaces. Increase rate for dry soils.
Selective Herbicides In crop use		Use when a surfactant is recommended on herbicide labels. Use the higher rate on waxy, hairy or hard to wet surfaces.
Soil Residual Herbicides	100 – 400mL	When applied with soil residual herbicides to standing weeds, add AC Axiwetta 1000 to thoroughly wet foliage. Consult product labels for individual recommendations.
Horticulture Insecticides, Fungicides and Growth Regulators	40 – 100mL	Vary rate according to volume and nature of target. Use only when recommended on product labels.
Paraquat and Diquat Herbicides Important when grasses are the major target	25-100mL	Vary rate according to spray volume. Select rate in accordance with product labels.
Pasture Topping For use with Glyphosate	125mL	
Watering of Turf and Dust Abatement Additive to water	40-100mL	Use higher rate when watering turf.
Fire Fighting Water Tanker Knapsack	5mL/100L 2mL/15L	In this field AC Axiwetta 1000 has the advantage of less weight to carry compared with less concentrated surfactants and of being non-flammable. It increases the wetting power of water, which assists in quick control and moping up of fires. It is of particular value where water may not be readily available, when a less drenching spray is needed, and a tank full will cover a bigger area.

**NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL
UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.**

GENERAL INSTRUCTIONS

Note: Where product labels recommend the addition of a non-ionic wetting agent as a percentage (%) dilution, add 100mL AC Axiwetta 1000 per 100 litres of spray mixture to give 0.1%, 250mL per 100L to give 0.25% or other rates as required using these examples.

Mixing: For wettable powders and water-soluble products, add AC Axiwetta 1000 in water before adding the agricultural chemical to the spray tank. For emulsifiable products, add AC Axiwetta 1000 after a good emulsion is formed.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

Harmful to fish. DO NOT contaminate ponds, streams, rivers or waterways with the chemical or used containers.

STORAGE AND DISPOSAL

Keep out of reach of children.

Store in the closed, original container in a cool well-ventilated area. Do not store for prolonged periods in direct sunlight. Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and deliver empty packaging for appropriate disposal to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. DO NOT burn empty containers or product.

Refillable containers:

LABEL ELEMENTS

GHS Label Elements	Not Applicable
---------------------------	-----------------------

SIGNAL WORD	WARNING
--------------------	----------------

Hazard Statement(s)

H320	Causes eye irritation.
AUH066	Repeated exposure may cause skin dryness and cracking.

Precautionary statement(s) Prevention

P264	Wash all exposed external body areas thoroughly after handling.
-------------	---

Precautionary statement(s) Response

P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337+P313	If eye irritation persists: Get medical advice/attention.

Precautionary statement(s) Storage

Not Applicable.

Precautionary statement(s) Disposal

Not Applicable.
